AVAILABLE COLORS | SELECTING A TIER

The colors represented here are only a guide; actual color and sheen will vary. Prior to installation, always do a test in an inconspicuous area with actual material being used to ensure product or color satisfaction. It is the user's responsibility to determine suitability of the product prior to use. Tier I colors are readily available at a lower cost per unit. Tier II colors may have potentially longer lead time at a moderate cost per unit.

Premier Building Solutions develops and manufactures high performance materials and systems that provide protection in commercial and residential buildings, as well as a variety of other industrial and transportation applications. These products have set the standard in the industry for quality and performance. The company's history of innovation has led to the development of breakthrough adhesive chemistries and new industrial-strength products that help customers increase the efficiency and durability of their critical assets.

POPULAR STANDARD COLORS

You can choose from one of the Popular Standard Colors below, request a custom color, or send us a color sample so we can help determine if we have something close from our extensive line of standard colors.

CUSTOM COLOR MATCHING

IF YOU CAN ENVISION IT, WE CAN MAKE IT!

While it is common to find immediate availability of stock, on the rare occasion that your color is not a stocked item, we would be glad to custom mix it in quantities lowest in the industry. Our specialized custom colorizing process and mixing equipment assures that our sealants will be matched each time. Simply send us a color swatch, substrate match or paint chip and we will custom match your color.

Custom Color Matching is available for the following products:

XtraBond™9500
XtraBond™9500TX
XtraBond™9550
XtraBond™9500XHS
XtraBond™50
XtraBond™150
XtraBond™450
